You are the expert on what impact legislation has on your business.

The issues legislators are considering are important!

A state minimum wage without a tip credit.

Bills to ban Trans Fats.

Repeal of state right to work laws.

School start dates.

Mandated recycling for bars and restaurants.

Taxes and the use of tourism taxes

We can show you the way.

Caravans and buses are coming from all over the state.

You'll be with your peers meeting and greeting legislators and top state officials.

We'll serve you a delicious lunch – free!
